Experiential Training for Students

LiMPETS Rocky Intertidal Monitoring Dates 2018-19

Use this as a general guide for what dates/times are available for Rocky Intertidal monitoring trips. Please be aware there is an in-class portion of this program to be completed before the field visit.

Monitoring will be scheduled in **2-3 hour time blocks** (e.g monitoring ~1 hour before low tide to ~1 hour after the low tide). In order to get all data collection completed, please plan to be on the reef the entire time you are scheduled.

Note: Low tides and times below are for Half Moon Bay, CA. Low tide times/program times will need to be adjusted for our Northern and Southern sites.

Date:	Low Tide (ft):	Approx Program Time:
Wed 12/5/18	-0.6	2:30-4:30pm
Wed 1/30/19	0.2	12:30-2:30pm
Fri 3/1/19	0.1	1-3pm
Mon 3/25/19	0	8-10am
Tue 4/9/19	-0.1	7-9am
Mon 5/13/19	-0.1	12-2pm
Tue 5/14/19	0.2	12:30-2:30pm
Wed 5/22/19	-0.8	7-9am
Thu 5/23/19	-0.5	8-10am
Thu 6/6/19	-1.29	7-9am
Fri 6/7/19	-1.07	8-9am
