Experiential Training for Students

LiMPETS Sandy Beach Monitoring Dates 2018-19

Use this as a general guide for what dates/times are available for Sandy Beach monitoring trips. Please be aware there is an in-class portion of this program to be completed before the field visit.

Monitoring will be scheduled in **2-3 hour time blocks**. All times listed are falling tides. In order to get all data collection completed, please plan to be on the beach the entire time you are scheduled.

Note: Low tides and times below are for Half Moon Bay, CA. Low tide times/program times will need to be adjusted for our Northern and Southern sites.

Date:	Low Tide (ft):	Approx Program Time:
Thu 11/29/18	2.7	8-10am
Mon 12/3/18	0.3	11-1pm
